Featured Content Gallery Configuration

Use the options below to select the content for your gallery, to style your gallery, and to configure the gallery slides and transitions. Visit the [Featured Content Gallery Plugin](#) website for more information.

Featured Content Gallery Code – If not already included, add this code to your template file where you want the Featured Content Gallery to be displayed:

```
<?php include (ABSPATH . '/wp-content/plugins/featured-content-gallery/gallery.php'); ?>
```

Featured Content Selection – Select either a blog category or individual post/page IDs for your featured content:

Select here to use category selection

Select here to use individual post or page IDs

Category Name:

Post or Page IDs (comma separated no spaces):

Number of Items to Display:

Check here to randomize post/page ID display

Gallery Style – Choose your gallery size and colors:

Gallery Width in Pixels:

Gallery Border Color (#hex or color name):

Gallery Height in Pixels:

Gallery Background Color (#hex or color name):

Text Overlay Height in Pixels:

Gallery Text Color (#hex or color name):
